WALLMOUNTED OUTDOOR GASHEATER

We spend more and more time outdoor and the demands that we have for our products in the house we take with us outdoor. We want beautiful and functional solutions that inspires us to use them more.

• Design by TOBIAS JACOBSEN

Tobias Jacobsen works in many different fields where his ideas and designs vary in form and function covering product design, furniture, jewelry and architecture.

The terrace heater is wall mounted, and its spotheater can be pointed in four directions to insure that the heat is directed accurately. Unlike the existing wall mounted models, which run on expensive electricity, our wall heater is gas powered...
